

EQUIPMENT RENTAL -VS- EQUIPMENT PURCHASE

The decision to rent equipment versus buy can be a tough choice for procurement and key stakeholders to make. Equipment tends to be critical to productivity, making it key to an optimized spend management strategy. Procurement needs to weigh several factors to decide what makes most sense for their organization.

Features to consider:	RENT	BUY
Low upfront capital expense		
Need for onsite storage or rental space for storage		
Requires workers to perform ongoing maintenance		
Avoidance of potential fees related to non-compliance and/or emissions		
Equipment depreciation during usable lifecycle		
Access to the latest technological advancements at each use
