

EDUCATION

# HELP CREATE A CLEANER SPACE FOR LEARNING.

## BISSELL® AIR PURIFIERS NOW AVAILABLE THROUGH SANITAIRE®

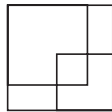

Cleaning and sanitization are more important than ever — and that includes indoor air quality. BISSELL® Air Purifiers can help reduce particulates and increase air flow, contributing to creating a cleaner environment — so students and staff can focus on school.

Here's what to look for in an air purifier:

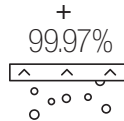

### CLEAN AIR DELIVERY RATE (CADR)

Air filtration speed in a room. The higher the CADR, the more air is filtered per minute.

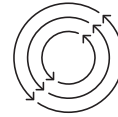

### COVERAGE AREA

From 100 sq. ft. to 1,200 sq. ft., BISSELL® Air Purifiers are available in three sizes to fit your space.

### FILTRATION

BISSELL® Air Purifiers with HEPA filters can capture 99.97% of 0.1 and 0.3 micron particles.

### AIR TURNS PER HOUR

The number of times per hour an air purifier moves a specific volume of air in a room.

# CLEAN THE UNSEEN.

What filter captures what?

## Pre-Filter Captures Large Particles

- Removes particulates
- Captures the larger airborne particles from your homes air like hair and larger dust particles

## HEPA Filter Removes Small Particles

- Removes particulates
- HEPA Filter Captures 99.97% of 0.1 and 0.3 micron particles
- Captures pollen, dust, dander and other allergens
- Remove triggers for allergies and asthma attacks

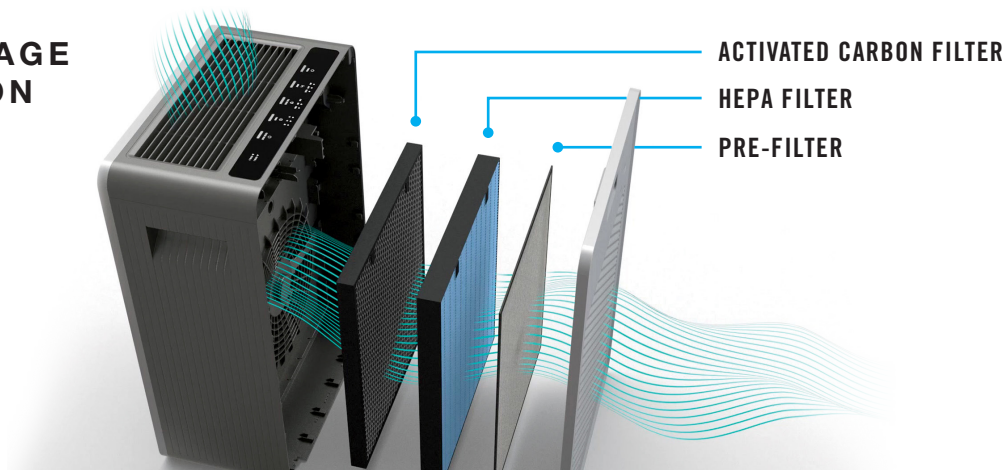

## Carbon Filter Reduces Odors & Gasses

- Removes gasses
- Activated Carbon Filter Captures common household odors, odors from pets, tobacco smoke and Volatile Organic Compounds
- Honeycomb-Structured Carbon filter is packed with thousands of carbon pellets for maximum odor control and adsorption

# CHOOSE THE RIGHT AIR PURIFIER FOR YOUR SPACE.

myair™

Slim profile for small spaces.

air<sub>220</sub>

Sleek design + enhanced filtration.

air<sub>400</sub>

Powerful performance + holistic air purification.

MyAir™ 2780A	
<b>COVERAGE</b>	100 sq. ft.
<b>FILTRATION</b>	3-in-1: Captures 99.7% of 0.3 micron particles
<b>FEATURE</b>	Whisper-quiet fan speed options
<b>FILTER LIFE</b>	3-4 months
<b>FILTER</b>	2801

air <sub>220</sub> 2609A	
<b>COVERAGE</b>	265.8 sq. ft. (4.8 air turns per hour)
<b>FILTRATION</b>	HEPA: Captures 99.97% of 0.1 & 0.3 micron particles
<b>CADR</b>	171.5 (smoke), 179.6 (dust), 153.9 (pollen)
<b>CFM</b>	171.5 CFM (CADR Smoke)
<b>FEATURES</b>	Sensor technologies monitor & respond to indoor air needs
	Provides real-time air quality feedback
<b>AIR TURNS</b>	Moves volume of air equivalent to an 800 sq. ft. room 1.6 times per hour
<b>FILTER LIFE</b>	~6 months
<b>FILTERS</b>	2677, 2678

air <sub>400</sub> 24791	
<b>COVERAGE</b>	485.5 sq. ft. (4.8 air turns per hour)
<b>FILTRATION</b>	HEPA: Captures 99.97% of 0.1 & 0.3 micron particles
<b>CADR</b>	313.2 (smoke), 319.3 (dust), 365.2 (pollen)
<b>CFM</b>	313.2 CFM (CADR Smoke)
<b>FEATURES</b>	Particle sensor technologies monitor & respond to indoor air needs
	Provides real-time air quality numerical & color-coded feedback
<b>AIR TURNS</b>	Moves volume of air equivalent to an 1,200 sq. ft. room 2.0 times per hour
<b>FILTER LIFE</b>	~6 months
<b>FILTERS</b>	2521, 2520

Note: CADR, air turns and coverage based on industry standard AHAM AC-1 testing.
